

해결하기: Asset Storage

어떻게든 이겨내야겠다

const lecture = firma.currentPage.lecture;

```
figma.on('selectionchange', async () => {
```

3)) ;

```
console.log('selection');
```

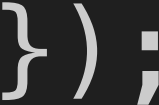

선택된 프로젝트에 대한 정보

```
const node = setReaction[0];
```

format: "PNG",

```
if(selection.length === 1) {
```

```
const bytes = await node.exp.printAsync({
```
