<https://asset-stroage/image.png?width=1000&blur=1000&format=jpeg>

URL format

You can convert and resize images by requesting them via a specially-formatted URL. This way you do not need to write any code, only change HTML markup of your website to use the new URLs. The format is:

```
https://<ZONE>/cdn-cgi/image/<OPTIONS>/<SOURCE-IMAGE>
```
