

**해결하기: Asset Storage**

어떻게든 이루어질 수 있도록 하겠습니다

const lecture = firma.currentPage.lecture;

```
console.log('selection');
```

```
figma.on('selectionchange', async () => {
```

선택원의 대화 장로

```
const bytes = await node.exp.printAsync({
```

format: "PNG",

```
const node = set[lecture[0]];
```

```
if(selection.length === 1) {
```
